SAVENIA WINS 2nd DOE 'SUNSHOT' CATALYST AWARD

WINNER – 2015 PROTOTYPING CONTEST – SAVENIA SOLAR RATINGS

(Bethesda, MD Issued May 19, 2015) - [Savenia Labs](#) has won a 2nd award from the US Department of Energy's 'SunShot' Catalyst Program, a prize that acknowledges the most cutting-edge ideas to transform the US solar marketplace. The company's winning application highlighted an IT prototype of [Savenia Solar Ratings](#), a rating label like CarFax but for home solar systems. Savenia Solar Ratings help home sellers and buyers more easily understand and unlock the monetary value in solar systems with innovative rating labels and marketing materials.

Savenia will receive up to \$100,000 from DOE to enable further development of Savenia Solar Ratings. This builds on the \$25,000 in IT support received in 2014 when Savenia won the SunShot Catalyst Business Innovation Award.

Savenia Solar Ratings were launched in 2014 to help home sellers capture the full value of their solar systems. Savenia Solar Ratings are part of a platform of Savenia Home Ratings that help unlock the value of various home efficiency upgrades, so sellers can differentiate, sell faster and capture more value. Savenia has rated homes in 6 states, including the solar system on [The White House](#).

The DOE SunShot Catalyst is an open innovation program that aims to catalyze the rapid creation and development of products and solutions that address near-term challenges in the U.S. solar marketplace. Through a series of prize challenges, SunShot Catalyst makes it faster and easier for American innovators to launch cutting-edge solar companies, while tackling time-sensitive market challenges. Since its inception, SunShot has helped hundreds of innovators bring mature solar solutions to the marketplace.
