

Energy &
Environmental Impact Ratings

US PHOTOVOLTAICS INC. PARTNERS WITH SAVENIA

OFFERS SAVENIA SOLAR RATINGS TO HOMEOWNER CLIENTS

(Bethesda, MD Issued June 24, 2015) - [Savenia Labs](#), an award winning provider of energy and environmental impact ratings today announced that it has signed a referral agreement with [US Photovoltaics Inc.](#) (USPV). USPV is one of the nation's leading Solar Renewable Energy Certificate aggregators and provides brokerage services to homeowners with solar systems across the mid-Atlantic. Effective immediately, this agreement allows the customers of USPV to utilize Savenia's proprietary Solar Ratings to capture and communicate the value of solar when selling their homes.

"Savenia provides a much needed service for our solar customers in the process of selling their homes", said Fred Ugast, President of USPV, adding "Solar is a great resource but the real estate and appraisal industries have been slow to recognize the savings and revenues a solar system adds to a property. Many homeowners struggle to quantify and explain the financial and other benefits of solar to potential buyers. Savenia provides the solution"

John Jabara, Founder of Savenia, stated: "We are excited to have the opportunity to work with a forward thinking partner like USPV, a Maryland based innovator in the solar industry with a sharp focus on excellent customer service".

About Savenia

Savenia helps Realtors, homeowners, builders and renovators unlock the value of home efficiency upgrades. Savenia provides home sellers with customized Home Rating Labels, marketing materials and online marketing to sell faster, provide higher client service and capture the full value of homes for sale. A two-time winner of the US Department of Energy [SunShot](#) program, Savenia has rated homes in 6 states including [The White House](#).
